

EXERCISE

DISCOVERY RESPONSES AND OBJECTIONS

Background

You're working on a litigation team representing a company in a dispute over an engagement letter that the company, Aces Corporation, signed with an investment bank, Sunset Investments. Your team just received all the discovery requests from opposing counsel.

Two of the discovery requests are:

1. All communications and documents regarding engagement letters signed by Aces Corporation.
2. All communications and documents regarding any interpretation of the engagement letter executed by Aces Corporation and Sunset Investments.

The partner has asked you to draft the initial responses and objections to these Requests for Production. You're meeting with her to discuss the assignment. She asked you to think about the specific objections that you'll make to these requests, and the sections you'll include in your draft responses and objections.

Instructions

Come prepared to discuss what you'll tell the partner in the meeting.
